

How to read a PHOT + GRAPH

Did you know that there are certain **clues hidden** in photographs? A **photographer** takes every picture with a clear intention in mind.

1. Look for the subject, **who** or **what** is being photographed?
2. Try to decipher the photographers' **intention**. What were they trying to document?
3. Look for any details in the photograph that give you clues about the **location**, **people** or the **surroundings**.

ACTIVITY

Here's a fun assignment for you. Look closely at this image. You can zoom in and out to see the details and write your responses to the questions below:

What are the different modes of **transport** you see?

Is it a residential area or a **marketplace**?

Can you **identify** any of the shops?

Why do you think the photographer **took** this photograph?
