

What Stories do Photographs Tell?

Photographs tell stories; about a place or a person or most often, both. We take photographs to talk about a moment we want to capture or places we have visited or people whom we love. So what are the **stories** behind the photographs that you take?

ACTIVITY

The theme for this activity is bazaar. We want you to take a series of **five photographs** at your local market or mandi and tell a story through it.

For example

Swati Aunty sells vegetables at our local market. She's always smiling.

Once you are done, share it with your friends and see how similar or different your stories are. **Share your photographs and stories with us!**
